"Striving for success without hard work is like trying to harvest where you haven't planted."

David Bly

As Pre-Board Examinations draw near, Our Director Principal and ideator, Ms Aditi Misra, addressed the students of class X in the school auditorium, on 23rd November 2022, in the presence of the Vice Principal, Ms Arpna Gupta, the Headmistress, Ms Nishi Dhanjal, class representatives and teachers of class X.

Ma'am blessed the students and inspired them to surmount all obstacles and soar high in the unbounded sky. She emphasized the need for methodical planning and shared a mélange of thoughts and ideas to maximize learning. Ma'am assured the students that their sincerity and hard work would yield excellent results. Sharing valuable tips, she said, practical and honest time schedules, the wise use of smart devices, and effective time management are imperative for students at the threshold of the board exams.

The students were advised to have a balanced perspective that would help them reduce stress and anxiety. Ma'am reiterated that the students should keep nervousness at bay by practising Pranayama and meditation. Staying calm and taking care of themselves physically, emotionally, mentally, and intellectually along with hard work would go a long way in achieving the desired results. Towards the end, Ma'am wished good luck to all the students.
