

## **Interact Monthly Report – April**

**"We cannot seek achievement for ourselves and forget about progress and prosperity for our community. Our ambitions must be broad enough to include the aspirations and needs of others, for their sake and for our own."**

Believing in this paradigm a small group of thoughtful and committed students of the Interact Club embarked on their journey to share knowledge, creativity and innovative learning practices with the students of Shiksha Kendra for the session 2018-19.

The first meeting of the session was held on 18<sup>th</sup> April, 2018 wherein the newly initiated members from grade Nine were introduced to the vision and motto of the club. As a ritual the new members were given the opportunity to recommend names of the movies that imparted some kind of social message. After a lot of deliberation the movie chosen to be screened was **'ZOOTOPIA'**

Friday 27<sup>th</sup> April, 2018 the auditorium of the school pulsated with excitement as the students of Shiksha Kendra waited eagerly to watch the proposed movie. After introducing themselves the new members along with the rest of the club members sat among the students of Shiksha Kendra to create a bond of love, trust and equality among themselves

The movie was well appreciated by all as **ZOOTOPIA** was about a city of anthropomorphic animals in which predators and prey peacefully coexisted. The movie reiterated the facts that slow and steady still got the job done, always be prepared for surprises in life, don't be afraid and keep dreaming and not to underestimate the power of any good deed done.

The session ended with a promise from the Interactors to plan many more exciting activities for the year ahead.
