

## **CLASS I-COMMUNITY HUBS**

We as community have many important hubs which work round the clock to provide us with several essential services. Acknowledging the importance of these the children of class 1 presented a Mini P.T.M before their parents.

The classes were transformed into railway station, bank, hospital, garden, airport and traffic park to lay emphasis on and create awareness of all the do's and don'ts thru a skit and song presented by the kids.
