

INTACH ACTIVITY FOR THE MONTH OF MAY

To celebrate Museum Day, INTACH school group had organized an activity for the middle school students on 2nd May'2017. The children brought artefacts such as coins, pottery items, ancient toys, stamps etc and set up their own class museum. They shared information about the objects brought by them with their classmates. The activity helped them focus on enquiry, information processing, reasoning, communication and observation skills. It also impressed upon cultural learning within the classroom.
