

Interact Club Report

The Interact Club held its first activity for the session 2017-18 for the students of Shiksha Kendra on 5th May, 2017. The activities conducted were Card Making for Mother's Day and Best Out of Waste.

The students of classes 1st to 3rd made cards for their mothers. The Interactors facilitated the activity by providing A4 size sheets to all the students and contributed decorative materials such as sketch pens, colour pencils, glitters and ribbons. They participated in the event by helping the children with colouring the cards and writing messages for their mothers. The excitement among the children of Shiksha Kendra reflected in their enthusiasm and willingness with which they participated in the activity.

Children of classes 4th and 5th showcased their talent through Best Out of Waste activity. The children brought waste materials from home and turned them into beautiful pieces of art. They made windmill, wall hangings, pen-holders and paper folders to name a few. The Interactors assisted them in their endeavor of creativity.

It was an enriching experience for the Interactors as well as the children of Shiksha Kendra.
