PEER EDUCATION-THEME- GIFT A SMILE

A WARM SMILE IS THE UNIVERSAL LANGUAGE OF KINDNESS

A smile radiates warmth, openness and friendliness. It also communicates happiness and generosity, makes the other person feel good and reciprocates the feeling. The peer educators of Junior School conducted an interactive session for the students of the Primary Wing on 3rd October' 17 at DPS sector 47 .

The theme was 'Gift a Smile', where the students, wore a badge and took placard carrying the same message. Laying an emphasis on activities that integrate the importance of a warm smile in our day-to-day lives, they recited a beautiful poem 'The Smile'. This was thoroughly enjoyed by the little learners of Primary Wing. An activity 'Keep on Smiling my Friend' was conducted where the students of Primary Wing were made to write down a good quality of their friend. Post these activities an engaging and interactive quiz session took place between the buddy teachers and the learners, where the learners were seen bubbling with happiness. 'Stars' were distributed to the little ones as a token of appreciation for their enthusiastic participation. Through these activities, it was shown how smiles create a congenial atmosphere around us. Such an atmosphere leads to great bonhomie and team spirit.

This was an enriching experience for both peer educators and students. The little learners of Primary Wing promised to carry this message further so that the way for a happy world can be paved through gifting smiles to everyone each day.
