

PTM REPORT CLASS 3

"The school's best ally in the task of nurturing a student's innate 'urge to learn' is, first and foremost, the parents,"

A Parent Teacher Meeting for class III was held on 29th September 2018. The PTM provided an opportunity for both parents and teachers to discuss the student's progress and find ways to work together to ensure a holistic development of the child. Parents were given a comprehensive feedback on the progress of their child by the class teacher. It was an interactive discussion wherein both the strengths and areas of improvement were shared with the parents. Parents got an insight into the activities done in school through a power point presentation and creatively done journals.

Parents were quite satisfied with the guidance and encouragement received by children in school. They appreciated the efforts and hard work of the teachers in providing children with an enriching environment helping them to learn and grow.
