ELECTION REPORT

CLASS IV

'The ballot is stronger than the bullet' – Abraham Lincoln

Keeping the above quote in view, an endeavour was made towards educating the students of Class IV about the working of Democracy by organising a Mock Elections session on 4th December 2018.

The students were made aware about the electoral process in the Indian Democratic System. The student nominees presented their manifestos to their classmates and campaigned to persuade fellow mates to vote for them. Voters excitedly cast their votes in favour of their chosen representatives.

Ms. Laveena Hemrajani, Headmistress of Junior Wing, came as an Election Inspector to ensure the smooth functioning of the election procedure. The casting of votes was followed by the counting process. The results were finally declared to the eager student candidates and electorate.

The Mock Elections provided the students with an opportunity for learning by doing and understanding Democracy as the government 'Of the People, By the People and For the People.'
