

REPORT

Vigyantram Grand Finale 2019

Date: 12th & 13th January 2019

Venue: IIT Mumbai

39 students of classes VII to XI of our school participated in the Grand finale of Vigyantram 2019, a national level championship organized by Dept. of Civil Engineering at IIT Bombay. Over 40 schools from Pan India participated in various competitions at the technology festival which provided a platform to around 600 students to showcase their knowledge, skills and talent.

Competitions were organized under three main categories namely Robotrons, QuaDrones and Innovations. **Our QuaDrones team comprising of five students of class XI Aniket Mathur, Arjun Singh, Diya Mukherjee, Ishan Manchanda and Param Kapur won the second prize.** Project presented by our Innovations team was appreciated by the judges. Robotrons also participated enthusiastically and gave tough competition to its opponent teams.

These two days at IIT Bombay took the participants through the timelines of technology and were filled with energy, enthusiasm and competitive spirit. Overall it was an enriching experience for the students.
