

Trip to Jaipur and Chokhi Dhani

“Travel is more than the seeing of sights; it is a change that goes on, deep and permanent, in the ideas of living.”

Excursions and tours play an essential part in the holistic development of a child. Such tours provide valuable lessons and equip the children with life skills. Keeping this holistic development in mind, an educational trip to Jaipur was organized for students of class III on 6th and 7th March 2017.

The trip was filled with moments of fun and frolic accompanied with learning about the rich Indian cultural heritage. It exposed the students to folklore of royalty, courage and valour of yesteryears. Children were mesmerized and spellbound by the grandeur of Amber Fort, Hawa Mahal, and City Palace of Jaipur.

Through this trip children not only got a glimpse of the colourful, rural way of life in Rajasthan but also relished authentic Rajasthani cuisine at Chokhi Dhani an ethnic Village Resort. They danced to local folk tunes and bought souvenirs for their family.

Children of class III had a chance to experience a sense of independence and responsibility by managing everything on their own for the first time. They returned enriched with lots of happy memories, new found confidence and knowledge which will be cherished by them forever.
