

MINI PTM REPORT- CLASS-III

“Learning is not just knowing what to do, but doing what we already know.”

The first mini PTM of class III was held on Wednesday 9th May 2018.

The students presented the concepts of Mathematics, Hindi and General Science in an activity based fun filled manne. Math concepts of place value and face value along with the importance of zero were beautifully reinforced through a small enactment by children. The significance of grammar in Hindi was presented through the recital of an interesting poem. The students simplified the notion of living and non-living things studied in General Science through an informative role play. They participated with full zeal and enthusiasm and were a pleasure to watch as they spoke their lines with great conviction.

The presentation helped the little ones bolster the lessons learnt in the class. The parents were all agog and appreciated the children performing confidently and seamlessly.
