

Chandigarh Trip Report- Classes IV and V

Travel expands the mind and fills the gaps.

To promote learning through outdoor interactions and experiences, Delhi Public School, Gurgaon, organized a three-day educational trip to Chandigarh, Kasauli and Chhatbir Zoo for the students of classes IV and V from 3rd May'18 to 5th May'18.

First on the list was the Rock Garden, a proof of human imagination and novelty. Children were astonished to see this one of its kind garden with sculptures made out of industrial and urban wastes including coal, clay, china ware, broken glass bangles etc. Later, a leisure evening at the Sukhna Lake filled everyone with energy and bliss.

Next day, the group drove to a small hamlet, Kasauli, located in the mountains of the Himachal Pradesh. Here as the children trekked to the Monkey Point, the highest point of Kasauli, at the height of 6,125ft, they got a unique opportunity to explore wide variety of flora and fauna. Evening was equally exhilarating for them as they bought little trinkets and souvenirs for their family and friends from the famous Sector 17 market of Chandigarh.

The final day brought with it the excitement to visit the Chhatbir zoo and Cactus Garden. The wide variety of distinct species of birds and animals charmed the students as they observed them in their natural habitat.

Travelling together for this outdoor trip not only helped to bring the spirit of camaraderie and friendship to the fore but also groomed these little ones to look after themselves and their belongings.
