## **2. About the participants**

Number of participants: 70+ Art Educators of different Schools of Pune.

## **3. Content of the Workshop**

- The Earth without Art is not a nice place to live in.
- The Stages of artistic development in a child.
- An ideal Art room should be a place that allows one's imagination to explore.
- A place that is filled with bright and different colours.
  
- Useful for developing a consistent and unique approach to Art Education including provision of improvement for the regular as well as reluctant students through variety of innovative paper craft and drawing & sketching activities.
  
- Emphasis on the belief that each child is different and unique and it also allows ones imagination to explore, learn and grow.
- Integrating Visual Art with other academic subjects.
- Finding ways to incorporate art into the everyday classroom is essential. It's been proven that early exposure to visual art, music, or drama promotes activity in the brain. What better way to create excitement in the math, science or history classroom.
