

CEEC Activity-Van Mahotsav

When we plant trees,we plant the seeds of peace and hope.

Trees are important ,necessary and valuable for our existence. Without trees humans would not be able to exist on this beautiful planet and now with each passing day our need for trees is more than ever.

CEEC celebrated the spirit of Van-Mahotsav on 17th July 2018 for the students of middle school.The class was divided into groups and students did Poster making activity on “Natural Healers”. Students wrote the benefits of 4-5 medical plants along with illustrations. Each class has adopted a small plant and will nurture it. The children were very enthusiastic about the activity.

This activity served the dual purpose of education and leaning for the students.
