

## Delhi Public School Gurgaon and I am Gurgaon, Join Initiative ...

### Where Does It Go?

*'Our Children have a fundamental right to a clear and healthy environment.' Waste is becoming a global threat.*

**Delhi Public School Gurgaon** joined hands with **I am Gurgaon** and became partners for a sustainable initiative. The school collected waste in three categories – Plastic, Metal and Ceramics /CDs . Three bins were installed in the school for students and teachers to have a greater understanding of segregation while also spreading the message of Reduce and Reuse . The students will later get a unique opportunity to work with eminent artists to make a public installation of the segregated waste .

Waste getting collected

Plastic waste packed in bags
