

INFOTECH DAY REPORT

Creativity is just connecting things.

Creativity comes from within.

Creativity is contagious, pass it on...

InfoTech Day was celebrated in classes III, IV and V on 20th February 2019. Various intriguing class activities were conducted to encourage the students to depict their knowledge through creative presentations.

A PowerPoint presentation on Hardware Components was shown to the students of class-III. A 'Show and Tell' activity based on the presentation was conducted in which the students spoke on various components of a computer using attractive head gears as props.

Class-IV students were shown a presentation on Electronic Gadgets. A group activity was conducted wherein the students designed an advertisement on any one of the electronic gadgets shown in the presentation.

Awareness about Cyber Security was generated among the students of class-V through a presentation followed by a crossword puzzle based on it, which the students enthusiastically solved.

It was heartwarming to see the children share ideas in groups and apply their knowledge creatively.
