

A Labour of Love

‘The best collaboration create something bigger than the sum of what each person can create on their own’

‘Back to School’, an initiative by CanKids...KidsCan was organized at Delhi Public School, Gurgaon from 16th April to 21st April, 2018. CanKids is a National Society for change for Childhood Cancer in India. ‘Back to School’ drive was conducted in the school to sensitise students about childhood cancer and to inculcate a feeling of Community Partnership. During the drive the students were asked to contribute books, school bags, stationery, colours, lunch boxes, water bottles and educational games for the cancer afflicted children who are imparted non-formal education by teacher volunteers in their centers.

The Infant Wing at Sector-40, the Primary Wing at Sector- 47 and the Senior Wing at Sector-45 contributed wholeheartedly towards the drive. The members of Interact Club, Communities Service and Social Awareness Club and Student Welfare Club joined hands in collecting and packing the articles.

A total of 18 cartons with the desired materials was sent to the organisation. The success of this drive echoed the ethos of the school motto ‘Service Before Self’.
