

"In every walk with nature one receives far more than he seeks." - John Muir

Vanmahotsav was celebrated on 21st and 25th July by the students of middle school. Each class adopted a potted plant and placed it outside the class to nurture it and spread the message of the importance of planting trees. To understand the value and usefulness of plants, the students made a presentation on indigenous plants. They worked in groups, researched on various aspects of indigenous plants/trees - historical significance, festivals and celebrations it is used, myths related to it, medicinal values and displayed the knowledge gathered on a chart paper with attractive illustrations. They shared their knowledge with their classmates by giving an oral presentation in their respective groups.
