

SOCIAL STUDIES – SHOW AND TELL ACTIVITY

Show & Tell Activity about 'My Favourite Planet' was conducted for the students of class III.

The young researchers shared information and interesting facts about different planets in the Solar System. They brought fascinating props and talked about the planets which intrigued them.

Students participated with great fervour and shared new acquired specifics enthusiastically. They gleamed while explaining about their favourite planet and were full of excitement and energy while showing their hand made props.

It was an endeavor to help students enhance their knowledge through research and boost their confidence through public speaking.

The activity was successfully conducted and it engraved the young minds with immense information related to our neighbours in the Solar System.
