

## **'Understanding and Implementing Competency Based Education (CBE)' in Social Science**

**Delhi Public School, Gurgaon**

**Saturday, February 6, 2021**

**Time of the session: 10:00am to 10:50 am**

A session was conducted on the topic: Understanding and Implementing Competency Based Education (CBE) in Social Science, by Ms. Abha Wasan, on Saturday, 6th February' 2021. The session was attended by teachers of the Social Science department of Middle School, HODs and Deputy HODs.

The presentation showed a connect between content and learning, across multiple disciplines. It laid emphasis on bridging the gap between assimilation of knowledge and application of the same. With the help of a lesson on 'Water- A Resource' content was developed with the help of different hands-on activities that can be used in the class to build on the knowledge and skills of the students.

**Tool used:**

Microsoft Teams

**Details of the session:**

The session began by explaining the meaning of competency. Competency Based Education is defined as an instructional system in which a performance-based learning process is used. The learner's inference of the content is improved. It focuses on outcomes of learning. Competency based learning is self- paced and treats each child as an individual.

Class 7, Geography Chapter: Water was taken up to explain how the competency-based learning can be used to make the teaching learning process more effective. Several activities on water cycle and salinity of water were discussed that can be used in the classroom situation to explain concepts better. A video was also shown to emphasise on the need to conserve water. Thereafter, the teachers were told how this topic can be integrated with subjects like Math, English, Art, Science and History.
