A webinar on **Role of Media during Pandemic** was organised by **IILM institute**, the esteemed panelists shared their thoughts on the role of media during pandemic with reference to **COVID**.

They talked about the positive and negative aspects of media, how people were educated about the precautions to be taken during this pandemic. Internet and social media were at their highest during this time. Awareness about covid was there at the same time it was creating anxiety among people which led to storage of important items like medicines, sanitizers etc. Media has played a positive role by bringing many issues to the front line. It was also suggested that there should be a benchmark set for journalist, so that we get some accurate reports.

Overall, it was an informative and enriching experience.
