

REPORT ON EARTH DAY

A special assembly was conducted on Thursday, 22nd April 2021 in Middle School to mark the 51st anniversary of Earth Day.

Students were informed and apprised about the history and importance of this auspicious day through a video. They were also made aware of the theme of this year's Earth Day, which is 'Restore Our Earth'. Thought provoking quotes and messages were conveyed to children to inform how small steps taken by each individual can contribute to protecting our Mother Earth.

A song 'Earth is home to you and me' was played to convey the value of little things that each one of us can do in order to take care of our Earth. Some are recycling old things and saving the resources for our future generations.

The students were explained about the importance of pollination through a honey bee activity. They displayed eagerness to participate in the activity wherein they guided a bee to pollinate as many flowers as possible and in the process learned fun facts about bees and our planet that they help to sustain.

The assembly concluded with the recognition of young scholars of 2020-21 through the display of e - certificates.
