

Report on ATL Marathon 2020 organised by Niti Aayog

ATL Marathon is a flagship competition for AIM, where Atal Innovation Mission brings in a new theme every year for innovators, under which students with the help of their ATL in-charges and mentors carefully research, ideate, innovate and implement their innovations over a period of six months. The top students then get a chance to undergo the Student Internship Program (SIP) with AIM's corporate partners and incubation centers, to further enhance and hone their skills and prototypes.

With an ambitious resolve to 'Research, Ideate, Innovate, Implement- Mindful Innovation for the Greater Good', this year's Marathon theme was aligned with 'Atmanirbhar Bharat'. Each ATL school was required to submit 25 projects with participation of approximately 100 students. The Marathon witnessed over 1000 Atal Tinkering Labs participating from across the country, from which 300 top innovators were selected and top 10 teams from each state that participated in the Marathon of ATL Marathon 2020, were also announced.

Young innovators from DPS Gurgaon, under the guidance of science teachers and ATL Team, participated with full enthusiasm and submitted their innovative ideas. It is very heartwarming to announce that three of the ideas from the school have found place in 300 best ideas in the country. Also, one of these ideas is among the top 10 ideas in Haryana State.

The ideas which got selected are as follows:

Project Idea	Participants
Agripredict (It is also selected as one of the top 10 ideas in Haryana State)	Akshara Singh (XE) Kushagra Mittal (XB) Samar Jain (XE)
Water Verification	Archit Goel (X B) Aryamann Das (IX E)
Parivartan, Car security Simplified	Sargun Singh Bhatti (XII H) Yoshee Jain (XII H)
