

## Planting the Seeds of Hope for a Greener Tomorrow

The students of Delhi Public School, Sector 45, Gurgaon are taught the importance of caring for their environment. Devyani Jaipuria, Pro-Vice Chairperson, DPS Gurgaon and Aditi Misra, Director Principal DPS Gurgaon both encouraged tree plantation in a big way through the Tree Plantation Drive undertaken in school on the occasion of World Earth Day. Students of Shiksha Kendra, a non-formal school for marginalized children, at DPS Gurgaon came together with a shared vision - to invest in our future. The junior school students expressed their love for Mother Earth through a well synchronized dance routine. The Student Council of Shiksha Kendra along with Devyani Jaipuria and Aditi Misra initiated the Tree Plantation Drive. The Shiksha Kendra students were given 1000 saplings. Each sapling represented a promise of a better future, a symbol of hope that one day their efforts would pay off, and the world would be a cleaner, greener place. This is the vision of Devyani Jaipuria, Pro Vice Chairperson, DPS Gurgaon. She said, "I hope that this initiative would not only beautify the surroundings but also encourage their families and neighbors to participate in the effort to create a healthier.
