

# Students of DPS, Sec 45, Gurgaon, drive change for the Underprivileged with Project Chakr

The students of Delhi Public School (DPS), Sector 45, Gurgaon, drive change for the underprivileged children with Project Chakr, an initiative to address commuting challenges for students, especially for young girls in rural and semi-urban areas.

In those areas, many families prioritise transportation for adults, compelling the children to endure tiring and risky walks to their schools amid traffic.

By refurbishing collected used bicycles for students in government schools, Project Chakr ensures safer and easier access to education. Within a span of only 25 days, it raised ₹1,65,000 from 130 donors via a fund-raising platform, and partnered with 'We Care Foundation' to expand their impact.

Project Chakr is also working with a charitable trust in Kulburu village of Gumla district in Jharkhand to

provide refurbished cycles to the underserved girls. Through engaging sessions and flash mobs, the student leaders have inspired over 2,000 peers, reaffirming their commitment to education as a basic right, and contributing to make it a reality for the underserved.

Project Chakr empowers children to break the vicious cycle of poverty and pave the way for a brighter future.
