

CLASS X : ASSEMBLY REPORT

School assembly allows the students to develop their confidence by speaking up and sharing their ideas. The students of Class X presented an assembly on Wednesday, 12th April 2023 on the topic 'Every cloud has a silver lining'. Students spoke about the darkness that overpowers the glimmer of hope. In life, one faces situations where there seems to be no hope. However, no matter how grave the situation might be, there is always a light at the end of the tunnel. This is the silver lining of the dark cloud. The assembly commenced with a prayer followed by the thought for the day, news headlines, weather reports, and a write-up and poem on how one should look for positive results from every situation rather than dwell on negative effects that come from it.
