

**DELHI PUBLIC SCHOOL, GURGAON**  
**REPORT: CLASS X ASSEMBLY**

*“Concentrate all your thoughts upon the work at hand. The sun’s rays do not burn until brought to focus”.*

Alexander Graham Bell

An assembly undoubtedly holds the numero uno position, out of all the routine activities in a school. Probably, it’s the first platform which is provided to young minds, boosting their confidence and imbibing a feeling of team spirit in their nascent minds.

The possibility of a changing environment and constant activity is what will open new avenues, of opportunity and success. Keeping up with the same, an on-line assembly was organized for the students of Class X, on February 3 2022, which was attended by the Senior Management Team, class representatives and class teachers of class X.

Our Director Principal and ideator, Ms Aditi Misra, addressed the gathering and motivated the students with her encouraging words of wisdom. She methodically delved upon the objectives and intricacies of streaming, as per the required guidelines and interacted with the students. Also, a mélange of thoughts, ideas and expressions were stressed upon with regards to the upcoming Pre-Board Examination.

Overall, the students learnt the benefits of staying focused and concentrating on their objectives in life. The metaphor of life being a camera is obvious. We just need to focus on our goals and capture the perfect ‘click’ of success.
