

ASSEMBLY REPORT CLASS X

School assembly is a platform for students to develop skill sets under the co-scholastic areas. The students learn valuable lessons, gain confidence and share their ideas with each other. It helps them to progress into adulthood, with strong social feelings

The students of Class X presented an assembly on Monday, 24th January 2022, on the topic “73 years of evolution of our nation” laying emphasis on how India has evolved in the past 73 years.

The assembly commenced with a prayer followed by the thought for the day, news headlines, weather report, a poem, health guides tips and videos. Students shared their views on what our nation has achieved, post-independence and where they project India’s status, at the global stage, in the next 25 years. Class representatives also addressed the students about this vision for our country.
