

Adopt a herb- Connect to your roots

The CEEC club of DPS Gurgaon conducted a discarded milk packet collection drive on 14th and 15th August 23. The activity 'Adopt a Herb' aimed to instill awareness about management of waste plastic milk pouches by turning them into seedling bags. The students were asked to get empty milk packets which were swapped for herbs. This also resulted in promoting appreciation for herbs. The activity was carried out for students of classes IV to XII. Under the guidance of Director Principal, Ms. Aditi Misra, the students of DPS Gurgaon are regularly made aware about the importance of protecting their environment.

The CEEC members / Eco warriors of each class sensitised their class mates for the activity. A large number of students, parents and teachers visited the stall. The CEEC club collected over 2000 milk packets and gave away almost 250 herb plants. The success of the drive gave a boost to the Eco warriors and brought in smiles to the participants.
