

REPORT- SPECIAL ASSEMBLY ON PREPARATION FOR EXAMS CLASS VIII

‘Keep your dreams alive. To achieve anything, we should have faith and belief in ourselves, vision, hard work, determination, and dedication. Remember all things are possible for those who believe.’

As the exam date approaches, students tend to feel tense. To boost up their confidence, a special assembly was conducted on 3rd February 2024 for the students of class VIII on the topic ‘Preparation for Exams’. To provide students with valuable strategies to enhance their study techniques and optimize their performance during exams, students of class VIII I recited a self composed poem.

By setting goals, managing time effectively, utilizing resources, maintaining healthy study habits, managing stress and seeking help when needed, students are well equipped to excel in their exams. The assembly served as a comprehensive guide for students, equipping them with practical strategies to approach exam preparation systematically. Students who brought laurels to school were applauded for their achievements.

The assembly helped students to cope up with the exam stress and prepare for their exams with confidence.
