

BAGLESS DAY-CLASS 3

REPORT

‘Children learn from everything they see around. They learn wherever they are, not just in special learning places’

We learn by doing and experiencing. Keeping this in mind, class III students of the Junior Wing, observed yet another ‘Bagless Day’ on 28th July 2022 in the premises of the school (DPS Sector-45).

The day was full of exciting hands-on learning activities which were planned with a view to upscale the physical well-being, social skills, collaboration and team spirit attitude of our young learners. The day started with sports activities which allowed the children to head outside, become active, and focus on developing their physical as well as mental health.

This was followed by a cooking without fire activity where our budding chefs made Monaco biscuit snack with toppings of their choice. Creativity of the students was at peak when they learnt to make beautiful envelopes by paper folding and pasting. They also wrote a message of gratitude for their siblings on the occasion of Raksha Bandhan.

The day culminated with an interesting quiz session and a fun movie screening in the school auditorium. As the students remained involved in the activities, it exposed them to the world beyond the books.
