

Balderdash- The Brilliant The Colour play

The Nursery students of the Infant Wing at Delhi Public School, Sector-45, Gurgaon, were enthralled by the musical play ‘Balderdash the Brilliant,’ performed by their teachers.

Set in the gloomy ‘Grey Land,’ the story followed the transformation of a lifeless kingdom into a vibrant world through a wizard’s spell. With colorful headgear, engaging props, lively songs, and energetic dance, the captivating performance emphasized the importance of colours in life.

Following the play, the young learners participated in hands-on activities such as colour mixing and shade discovery through experimentation. They further developed their fine and gross motor skills by sorting and classifying objects using tweezers based on colours, balancing bean bags on their heads, and practicing coordination and teamwork while grouping by colours.

The session concluded with the children joyfully singing Razzle dazzle do, tap tappity bam bam. This was followed by a mindful reflection on the significance of colours and the importance of caring for Mother Earth to prevent it from becoming a dull, grey land.
