

CAREER COUNSELLING REPORT – Classes III, IV and V

‘The future depends on what you do today, but if you do it right, once is enough to realise your dreams.’

In today’s environment of multiple career options, knowing about the choices available at an early age helps children in their decision-making process. This also helps in shaping the future growth and development of students. It is vital for an individual to learn how to manage their skills and convert them into future objectives.

A career counselling session for students of classes III and V was held on 5th August 2021 and for class IV it was held on 12th August 2021. Career guidance was provided to the students by the parents, to help them acquire the knowledge, information and skills necessary to recognize career options. Students could connect well with the parents of their peer group and became aware of the different career options available which helped them identify their interests.

The session ended with students asking their queries regarding the career details shared by the speaker and visualising dreams for the future.
