

**DELHI PUBLIC SCHOOL, GURGAON**  
**CLASS VI, VII & VIII**  
**CEEC ACTIVITY**  
**MONTH- AUGUST (2021-22)**

***'If you save water, water will save you'***

The existence of water is inextricably linked to life. Life on this planet Earth would have been impossible to imagine if there had been no water.

The class teachers of classes VI, VII and VIII shared a short film on 'Save Water' with the students.

(Link to the video: [https://www.youtube.com/watch?v=paVt\\_WZJ0B8](https://www.youtube.com/watch?v=paVt_WZJ0B8) )

After watching the film, the students pictorially depicted ways to supply clean water to the underprivileged community of India. They were given 20 minutes for this activity. Then, one by one, they showed and explained what they had drawn. They came up with unique and innovative ideas to make clean water accessible to the underprivileged community of India.

Students were introduced to the fact that using water-saving techniques can save money and also ease the pressure on water bodies like rivers, bays, and estuaries. This can further help to keep the environment healthy and sustainable.
