

Class II Earth Day Assembly -Guardians of the Earth

The Earth Day assembly presented by Class II students was a touching reminder of our responsibility to care for our planet.

The assembly started with a soulful song that stressed the need to protect and preserve the Earth. It was followed by a powerful presentation that illustrated the damaging effects of pollution and underlined the importance of the three R's—Reduce, Reuse, and Recycle. A graceful dance performance beautifully captured the spirit of love and commitment towards Mother Earth.

The event concluded with all students taking a pledge to make small but meaningful changes in their everyday lives to help create a cleaner, greener future for all.
