

MINI PTM REPORT – CLASS IV

‘Wisdom gained in moments of joy is carried as a light through the ages.’

The first Mini PTM for Class IV was held on Friday, 25th April 2025. It provided a wonderful platform for students to showcase their learning in the presence of their parents. The event seamlessly blended academics with creativity, art and music to make learning an engaging and immersive experience. The students presented concepts from English, Hindi and Mathematics that refined their team work and communication skills.

In English, students brought the concept of ‘Homophones’ to life through a funny skit and peppy song, transforming a complex topic into an entertaining and memorable lesson. A captivating Hindi grammar presentation, which also included a lively song, ‘Sangya, Sarvanam, and Visheshan’, made linguistic concepts more simple and enjoyable for the audience. Mathematics took the centre stage as the students explored the significance of zero in an engaging and thought-provoking skit. A well-structured multimedia presentation enriched the learning experience, reinforcing key mathematical concepts through vivid visuals.

The parents were apprised about the school celebrating Poshan Pakhwara, an initiative of CBSE in collaboration with the Government of India. They were urged to participate actively in highlighting the importance of balanced diet and physical activities at home too.

An art exhibition by Kala Kravala Vasantotsav Children's Art Festival was put up in Dominos Block. It also included the art work done by the students of Shiksha Kendra.

The event concluded with resounding applause by the parents, appreciating the efforts of school in nurturing the students’ confidence and enthusiasm for learning.
