

## **REPORT OF DILLI DARSHAN (2023-24) Class III**

**“Travel makes you realize that no matter how much you learn, there’s always more to learn”**

Diversity in culture makes Delhi, one of the most prominent tourist attractions. An educational trip to Delhi- ‘Dilli Darshan’ was organized for the students of Class III on Friday, 6<sup>th</sup> October 2023. This annual event gave the young children an insight into the history of the capital city of our country and also provided an opportunity to reach out for information beyond the text.

The students were full of enthusiasm and were looking forward towards an exciting day ahead. The first destination was the world’s first brick minaret – Qutub Minar, whose history attracts a large number of tourists from different parts of the world. The children were apprised about its architecture and the story associated with the making of this grand tower. The next destination was Jantar Mantar– an eighteenth century astronomical observatory where the students were amazed to see the interesting architectural instruments that help to predict the time and movement of the celestial bodies. The last stop was the National Rail Museum, which represents more than one hundred sixty three years of splendid and rich heritage of Indian Railways. Students were astounded to see the collection of various ancient locomotives, coaches and engines like The Patiala State Monorail, The Fairy Queen steam locomotive, Electric locomotives, Saloons, Wagons, Armoured Carriages etc.

As the bus made its way through the North and the South Block, the panoramic view of Parliament House, Rashtrapati Bhavan, India Gate, Supreme Court, High Court and several other state buildings filled the children with enthusiasm.

Healthy and sumptuous lunch and other refreshments were served to the children which kept them energetic and hydrated during the day. A class photograph taken at Qutub Minar proved to be a precious memorabilia for all the students. It was a day well spent as the trip turned out to be an excursion full of knowledge, discovery and fun.
