

## REPORT ON DAY CAMP – CLASS III

*“Some memories are unforgettable, remain ever vivid and are truly heartwarming.”*

To give the children an experience of bonding with their classmates and learning new skills with perseverance, a Day Camp was organised for the students of Class III in DPS Sector 45 on Friday, 23<sup>rd</sup> February’24.

The camp started with an outdoor picnic at Tau Devi Lal Park where the children were engaged in fun filled games and interesting activities. Later, the children were taken to DPS, Sector 45 to familiarise them with school premises. They were introduced to the fascinating world of astronomy through a planetarium set up. The little astronauts identified various scientific phenomenon associated with celestial bodies. The exuberant learners zealously participated in the art activity where they learnt paper folding art and created beautiful art pieces. The scrumptious lunch and lip-smacking snacks at regular intervals gave the required energy to the little ones. The story telling session and dance created the most entertaining and fun filled day. Giggles and laughter echoed as the tender minds absorbed each moment with awe. Spirits were high and happiness could be felt in the air when they witnessed a lively performance by their own teachers. The children carried home goody bags with treats and a camp photograph which was a lovely gift for them to cherish.

The Day Camp was indeed an important microcosm that will help children adapt to the new surrounding in a better way as they enter another phase of schooling by stepping into a larger expanse.
