

Educational Field Visit to Hero MotoCorp, Gurgaon

The Science Clubs - Redshift, Allotropes and Pulse of Delhi Public School, Gurgaon, organised an industrial visit to Hero MotoCorp, Gurgaon plant on Friday, 25th April, 2025. A group of 153 students of class XII accompanied by their teachers, visited the plant. This experience provided the students a unique opportunity to gain an insight into industrial processes and bridged the gap between theoretical knowledge and practical application.

During the visit, students witnessed the working of assembly lines, engine manufacturing units, and robotic systems. They observed how raw materials are transformed into finished products, gaining a deeper understanding of the manufacturing process.

Ms. Parul Sharma, General Manager - Head HR, and Mr. Abhijeet Gattani, Deputy General Manager India Business Unit, shared their expertise with the students in the school auditorium which was followed by visit to the plant. They provided valuable inputs regarding the world of industry.

The visit also focused on Industry 4.0 technologies and eco-friendly practices, equipping students with knowledge about the latest trends and innovations. This exposure will help students to make informed career choices and thrive in the evolving work landscape.

The interaction with the experts was an enriching experience that gave students a deeper understanding of the expectations and requirements of the industry.

The visit was a resounding success which empowered students with knowledge and inspiration, preparing them for future challenges.
