Guest Speaker Program
Power of Artificial Intelligence
Conducted by: Mr. Nitin Vishvakarma
Date: 28th September 2024
Class VIII

An interactive session on the 'Power of Artificial Intelligence' was conducted by Mr. Nitin Vishvakarma, a parent volunteer. The session began with an engaging discussion about artificial intelligence and its significance in today's world. Mr. Nitin provided an insightful introduction to AI, highlighting its growing importance across various sectors.

Students enthusiastically shared various innovative examples of how AI is being used today. Their curiosity was piqued as he introduced them to some of the coolest AI projects, showcasing real-world applications of AI. The students were impressed by the practical uses of AI and its future career prospects, sparking a lively discussion. In addition to the benefits, he also addressed some of the challenges associated with AI, such as data privacy, over-reliance on technology, and the lack of personalisation.

Mr Nitin encouraged the students to think critically about the impacts of AI on our society. He also highlighted how AI could revolutionize fields such as medicine, space exploration, and communication creating new opportunities and advancements.

To conclude the session, an exciting quiz on AI was conducted. Overall, the session was highly informative and engaging, leaving the students inspired and eager to explore more about the world of Artificial Intelligence.
