

INTACH Activity Report: Celebration of World Cultural Diversity Day

Senior school students from classes XI and IX respectively participated in a special event organised by the school's INTACH (Indian National Trust for Art and Cultural Heritage) members to celebrate World Cultural Diversity Day on May 21st and 24th. The primary activity involved the students by forming groups to create documentaries on the theme of cultural diversity. This project encouraged them to explore various cultural aspects, including traditions, languages, cuisines, festivals, and more, from different parts of the world. Each group was tasked with researching their chosen topics, scripting their narratives, and filming and editing their documentaries.

Once the documentaries were completed, their work was presented in their respective classrooms on the smart class. These presentations were followed by open discussions led by the students and moderated by their teachers. The discussions aimed to delve deeper into the themes presented in the documentaries and to reflect on the broader implications of cultural diversity in today's globalised world.

The INTACH activity on celebrating World Cultural Diversity Day proved to be an enriching experience for the students. It not only enhanced their understanding of cultural diversity but also developed their skills in research, teamwork, and multimedia production. It provided students of classes IX and XI with an opportunity to explore and celebrate the richness of cultural diversity. The activity not only educated them about the importance of cultural preservation but also equipped them with valuable skills that will benefit them in their future academic and personal endeavours.
