

INTACH FILMIT REPORT

Filmit is an exciting multi-cultural project that helps students make short films on their city's heritage. As part of this initiative, INTACH organised a two-day movie making workshop attended by students of class VIII along with their teachers. The content workshop held on 23rd July 2024 was conducted by Mr Feisal Alkazi eminent theatre personality, film director and author of some immensely popular children's books. The themes of this year's films were given to the students. The students were trained in content development. The session was very interactive and motivated students to use their creative skills and inspired them to come up with different ideas.

The technical workshop was held on 25th July 2024. Few short films were shown during the session to help the children get an insight into the world of film making and become good film makers. The students were trained on the technicalities of camera handling, shooting and editing techniques that go into preparing a popular film. The workshop was intended to encourage the students to use technology as a powerful medium to preserve our country's heritage.

The two-day workshop was an enriching experience for our students and helped them to learn about the art of movie-making.
