

INTACH ACTIVITY- APRIL

MIDDLE SCHOOL (2024-25)

FLOOR ART TRADITIONS

The INTACH School group organised an enriching activity on 18th April 2024 for class VI, and 23rd April 2024 for classes VII and VIII respectively. The activity aimed to engage students in the intricate world of rangoli, a traditional art form rich in historical significance.

Students conducted research and documented the intricate details and cultural symbolism associated with various patterns and motifs commonly found in rangoli designs of their region. These included Kolam, Mandana, Muggu etc. This deepened their understanding of both the materials utilised and their cultural relevance. They also created sketches of rangoli patterns. In doing so, they honed their skills in symmetry, precision and gained a deeper appreciation for the technical aspects of the art form.

The activity offered children a glimpse into the rich tapestry of our cultural heritage while fostering creativity and cultural appreciation.
