

Infant-IMAGICA

The students of class Infant participated enthusiastically in related activities during the Science Week, 'IMAGICA'. Special themed corners were set up – Bubble Station, Sparkle Hands, Float & Sink, Pulley Pull-showcasing simple yet interesting experiments.

Science Week was an exciting, hands-on experience that sparked curiosity and learning. Students were amazed by the *Bubble Station*, explored hygiene at the *Sparkle Hands* corner, experimented with buoyancy through *Float and Sink*, and discovered simple machines at the *Pulley Pull* corner. Each activity encouraged observation, inquiry, and joyful exploration.

The experiments sparked curiosity and ignited scientific streak among the little ones, making the science fair- IMAGICA- Impossible is Possible an enriching and memorable experience. Related takeaway craft was made by the students.
