

## MINI PTM REPORT - CLASS V

‘Education is a shared commitment between dedicated teachers, motivated students and enthusiastic parents.’

The Junior Wing of Delhi Public School, Gurgaon had arranged for a Mini PTM of Class V on 18<sup>th</sup> August 2023. It gave the parents and the teachers a common platform to witness the talents and the abilities of the children. The parents were immensely delighted to see the performance put up by their children.

The students showcased their speaking and acting skills by presenting a skit on Sustainable Development Goals wherein they talked about the seventeen Sustainable Development Goals (SDGs) and their aim to transform the world and make it a better place to live in. After that, the students presented another skit on the topic, Circles. This was an interesting way of revisiting Geometry, a branch of Mathematics. They used ribbons as props to highlight the properties of a Circle. They also exhibited their Linguistic skills in a rhythmic manner. They greeted everyone, ‘Good Day!’ by singing mellifluous songs in their respective Third Language with proper expression and voice modulation.

The spectacular performance by the students and their confidence left the audience spellbound. The parents truly appreciated the efforts and hard work of the young performers and teachers. The Mini PTM of Class V concluded successfully with the parents and the teachers looking forward to more such wonderful programmes in future.
