

REPORT – MUN/INDIATION

“Be the change you wish to see in the world”
-Mahatma Gandhi

Model United Nations, also known as model UN or MUN, is an educational simulation in which students learn about diplomacy, international relations, and the United Nations. MUN teaches participants skills like research, public speaking, debating, and writing, in addition to critical thinking, teamwork, and leadership. MUN is meant to engage students, and allow them to develop deeper understanding into current world issues and world politics.

The Indiation program for the students of classes VI and VII and Enlighten MUN program for the students of class VIII was held from 29th May 2023 to 31st May 2023. During the Indiation programme, learners honed various soft skills like collaboration, problem solving & lateral thinking by participating in activities and discussions related to different facets of India. During the MUN program, learners were exposed to the world of MUNs by understanding the UNA/USA procedure and they honed essential skills like public speaking, diplomacy and collaborative problem solving through group discussions, debates and a range of other activities.

These activities focused on developing essential 21st century skills and at the same time introduced the students to a range of facets related to India. This also helped in developing their confidence and the art of convincing others. Learners participated enthusiastically and enjoyed all the activities.
