

## MINI PTM REPORT – CLASS IV

"The knowledge acquired with joy is etched in memory forever."

The Mini PTM for Grade IV was convened on Wednesday, 24<sup>th</sup> April '24. It provided an opportunity to the students to demonstrate their skills acquired in the different subjects during the past few weeks in front of their parents. The occasion showcased a harmonious blend of education with art and music. It also inculcated communication and collaboration skills amongst the students as they presented captivating displays encompassing English, Hindi, and Mathematics topics.

Venturing into the linguistic realm, the students presented the concept of 'Homophones,' infusing humour into its complexity through a skit and a rhythmic poem. A playful yet insightful presentation on the grammar topics in Hindi, accompanied by the song "Sangya, Sarvanam and Visheshan" engaged the audience effectively. The focus then shifted to the fundamental domain of Mathematics, which emphasised on the concept of Zero, capturing the interest of parents. A vivid PowerPoint Presentation helped to increase the visual impact and understanding of all the concepts conveyed by the students.

The classrooms resonated with heartfelt applause from the parents who acknowledged the growth in children's confidence and diligence. They also appreciated the continuous efforts of school in educating, nurturing, and inspiring the young minds.
