

## Nursery-Transport Park

The students of class Nursery were thrilled to find their school ground magically transformed into a lively Transport Park. Excitement filled the air as they eagerly participated in the Transport Parade, proudly showcasing miniatures of their favourite vehicles while marching to vibrant beats.

Interactive corners like Wonder Wheels, Puzzle corner, Art on the move, Recycling Station, Car Wash, and Petrol Pump offered engaging, hands-on experiences, allowing the young learners to immerse themselves in real-life scenarios. Adding to the excitement, the "Place Me Right" activity proved to be both fun and educational, helping the children categorize various modes of transport with ease and precision. The day was filled with joy, learning, and unforgettable memories!
