

Embracing Positivity and Celebrating Earth Day

A special assembly with a shared purpose of spreading positivity and honouring the Earth Day was conducted by all the sections of class IX in the classrooms on the 24th of April, 2024. The assembly commenced with a thought for the day to embrace positivity in our words and actions. This was followed by the news from across the country and from around the globe. Students prepared PPTs, skits, raps to drive in the significance of the Earth Day, showcasing their deep understanding of environmental issues through innovative presentations and performances. From highlighting the importance of sustainable living to emphasising the urgency of conservation efforts, every aspect of the assembly resonated with a unified message: our planet's well-being is in our hands. The pledge taken at the end was not merely a formality but a solemn commitment to take concrete actions towards a greener, healthier future for generations to come.
