

## Potter's Nook – Primary Wing

It was a special day at the Primary Wing as the Pottery Room was inaugurated by our Director Principal, Ms Aditi Misra. With a warm smile and words of encouragement, Ma'am untied the ribbon, marking the official opening of the creative space.

She encouraged the students to explore their creativity with their hands and hearts, reminding them of the joy and calm that working with clay brings.

She also took to the potter's wheel herself, delighting everyone with her graceful touch and inspiring presence. She named the room Potter's Nook, a cosy and imaginative corner where clay stories come alive.

The Pottery Room now stands as Potter's Nook, a space where imagination takes shape and young minds find expression through the art of moulding.
